

**Mr Peter Brownson**

DM FRCS (Ed) FRCS (Tr & Orth) (UK)

President

The British Elbow and Shoulder Society

Consultant Orthopaedic Surgeon

The Royal Liverpool and Broadgreen University Hospitals NHS Trust

Mr Brownson was elected a member of Council for The British Elbow and Shoulder Society in 2012 and is the current President.

He was elected a Fellow of the Royal College of Surgeons of Edinburgh in 1991 (FRCS Ed), after which he undertook a period of orthopaedic research at Nottingham University. This research involved impact biomechanics as applied to aircraft passenger safety. It culminated in the submission of his doctoral thesis and the award of a DM.

Mr Brownson continued his orthopaedic training in Nottingham, and completed his training as the Shoulder Fellow in the Nottingham Shoulder and Elbow Unit.

In 1998 Mr Brownson was appointed as a Consultant Orthopaedic Surgeon in Liverpool where he was instrumental in establishing the Liverpool Upper Limb Unit as a centre of excellence for shoulder and elbow surgery.

He is recognised for his expertise in arthroscopic shoulder surgery. He is regularly invited to lecture and carry out live surgical demonstrations at courses across Europe and the United States.

Mr Brownson treats a significant number of elite athletes. He is the Upper Limb Surgeon to Liverpool Football Club and, in addition, treats players from 7 other Premiership Football Clubs.

He is actively involved in research and has published over 20 papers as well as being a co-author for four sets of National (BOA/BESS) Care Pathways.

Mr Brownson is a member of the Arthroscopy Association of North America (AANA) and is a corresponding member of the American Shoulder and Elbow Society (ASES). In addition, currently he is the UK national delegate to the European Society for Shoulder and Elbow Surgery (SECEC).
