

"We are truly grateful for the exceptional experience we had during our orthopedic IMRI fellowship. The program's comprehensive curriculum and dedicated mentors provided us with invaluable knowledge and hands-on skills. We are deeply thankful to prof.jegan , dr sunil reddy, dr bobby pandit , dr aman sood and last but not the least dr. Mario Penta for magnifying our surgical skills and also for the exceptional hospitality. This fellowship not only enhanced our surgical expertise but also fostered a collaborative and supportive learning environment. We feel well-equipped to navigate the challenges of orthopedics, thanks to this enriching fellowship and lot of respect for dr Pushpinder bajaj from the bottom of our heart. Long live ISKSAA"
