CURRENT CONCEPTS IN ARTHROSCOPIC SURGERY OF LOWER LIMB

Dear Friends ,

We welcome you to this second edition of Current Concepts in lower limb Arthroscopy to be held on 21st - 22nd April in New Delhi. After the success of the Symposium on Current Concepts in ACL Reconstruction in March 2006 a need was felt to address to other Joints of the Lower Limb amenable to Arthroscopy namely the Hip and Ankle joints. The venue of the Symposium will be at the Indian Spinal Injuries Centre, New Dehli.

This time we will be having a basic cadaveric and advanced cadaveric workshop preceding the symposium where the participants will have an opportunity to understand and practice principles of hip, knee and ankle arthroscopy in cadavers.

This will be followed by the Symposium. The format of the symposium will be lectures on Current concepts of Lower limb arthroscopy with a special emphasis on Hip and Ankle Arthroscopy. There will be 4 live surgeries relayed from the theatres to the Auditorium demonstrating Hip and Ankle Arthroscopy, ACL Reconstruction using various graft options and Meniscal repair.

An experienced & pioneering Indian faculty along with Prof J Krishnan & Dr David Martin from Australia and Dr S Anand from UK will ensure that your academic visit to New Delhi will be a fruitful one.

We look forward to seeing you in New Delhi

With warm regards

Yours sincerely

Dr Pushpinder Singh Bajaj
Symposium Director
